THE Lifestyle CONTRACTOR

YOUR SOLUTION TO...
LOVE THE HOME YOU ARE IN!

OPEN SPACE

Open space under the sink, cooktop, shelving, and prep counter will allow easy access and provide wheelchair accessibility too.

POT FILLER

Reduce trips to the sink. Avoid moving large heavy pots and potential hazards.

APPLIANCES

From induction cooktop that doesn't get hot (except where a pot is touching) to stovetop controls at the front of appliance, selection is essential.

HARDWARE

Choose large pulls instead of round knobs; much easier on arthritic hands.

FLOORING

Cork flooring is soft and offers cushion under-foot, yet hard enough for wheelchair navigation. Properly maintained cork is relatively easy to clean and care for.

ORGANIZATION

Dishes are organized in drawers below the counter-top and are easy to access. Electrical outlets at accessible heights makes liveability easier too.

VARIED HEIGHTS

Varied-height cabinets and countertops that can be easily reached from a wheelchair.

For Homeowners Age 60 and Older

Cover the Rising Cost of Healthcare...

A reverse mortgage lets older adults access their home equity to help pay for healthcare expenses such as:

- Large medical bills
- In-home or long-term care
- Home modifications
- And more

Since older adults' healthcare needs often are sudden or unexpected, a reverse mortgage loan can be an effective way to reduce the burden of healthcare costs, and to ensure that funding is there when they need it—as they continue to live in and own their homes. As with any mortgage, the borrower must meet their loan obligations, keeping current with property taxes, insurance, and maintenance.

Call today to learn more about healthcare funding with a reverse mortgage.
